Opportunities — These suggestions can help your page load faster. They don't directly affect the Performance score.

Op	pportunity	Estimated Savings	
	Eliminate render-blocking resources	0.3 s ×	
	Reduce unused JavaScript	0.2 s ×	

•

Diagnostics — More information about the performance of your application. These numbers don't <u>directly affect</u> the Performance score.

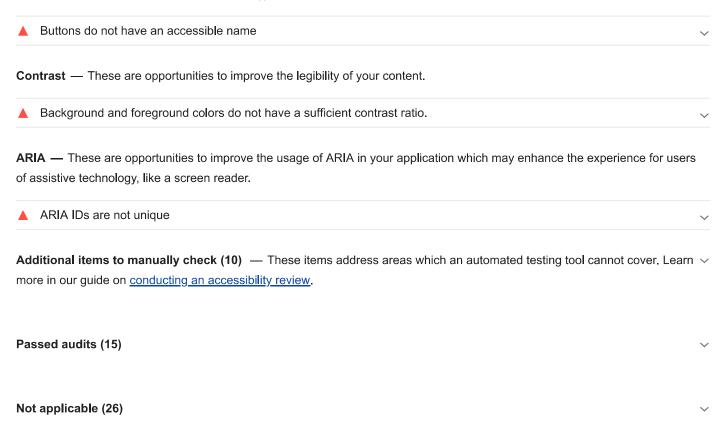

Compared to the aggreent with an efficient aggree policy.	
Serve static assets with an efficient cache policy — 3 resources found	~
Avoid chaining critical requests — 9 chains found	~
 Keep request counts low and transfer sizes small — 19 requests • 306 KiB 	~
Largest Contentful Paint element — 1 element found	~
Avoid large layout shifts — 5 elements found	~
Avoid long main-thread tasks — 1 long task found	~

Accessibility

These checks highlight opportunities to improve the accessibility of your web app. Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

Names and labels — These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.

Best Practices
